

THE
Florida House
EXPERIENCE

Why we are Different:

The Florida House Experience understands that addiction is complex and that there is no single treatment that will work for everyone. We utilize a multi-dimensional, Collaborative Care model to ensure that our patients receive the quality of care that most benefits them:

- ▶ Medicine
- ▶ Family Therapy
- ▶ Psychiatry
- ▶ Case Management
- ▶ NeuroRehabilitation
- ▶ Holistic Services
- ▶ Group and Individual Therapy
- ▶ Aftercare & Sober Living

The Florida House Experience is a medically integrated facility where your MD, Psychiatrist, Neuroscientist, Clinician, Nurse, and Case Manager will work in partnership to solve your substance use disorder or mental health issue. The Florida House Experience employs a team of over 50 highly qualified, licensed medical and clinical professionals to help you get better. We provide different facets of treatment in order for our patients to receive a comprehensive recovery plan. By addressing each area of living (e.g. physical, mental, emotional, spiritual, and social) patients are able to establish lives free of drugs and alcohol through a supportive and guided process.

With patience, resilience, and determination, treatment is effective in healing those affected by alcohol and drug addiction. We believe that support and education are key factors to the outcome of success in addiction treatment, so we work tirelessly to provide our patients with the skills they will need post treatment to rid their lives of the grip of addiction. We want to be in your corner, and will support you with our robust Alumni Network well after you leave.

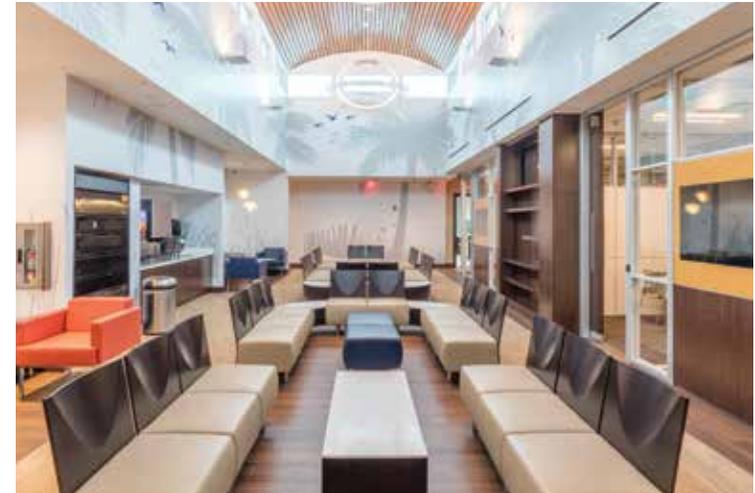

The Florida House Experience boasts a “Best in Class” treatment facility that promotes a strong sense of community while also providing patients with ongoing access to our multi-disciplinary team. We don’t just treat one area that contributes to addiction, we treat the entire person as a whole. We believe that this is the best way to achieve long-term success in addiction recovery. For the past 15 years, Our Campus has been offering a peaceful, welcoming and friendly environment to empower patients at all stages of recovery.

Mission Statement:

Our mission is to provide integrated modern day addiction treatment at the highest level of quality, so every patient has the opportunity for a better life.

Our vision is to help every person and family struggling with drugs, alcohol, or mental health issues get on the path to recovery and good health.

The Florida House Experience (FHE) is a nationally recognized, dually accredited, dual-diagnosis treatment center that focuses on the care, support, and well-being of those who suffer from addiction. We are affiliated with the Mount Sinai Icahn School of Medicine: Friedman Brain Institute, Florida International University (FIU), Florida Atlantic University (FAU), Barry University, the University of Miami.

The Disease of Addiction:

Addiction is a primary, chronic disease of brain reward, motivation, memory and related circuitry. Dysfunction in these circuits leads to characteristic biological, psychological, social and spiritual manifestations.

Like other chronic diseases, addiction often involves cycles of relapse and remission. Without treatment or engagement in recovery activities, addiction is progressive and can result in disability or premature death.

Levels of Care

For many families, navigating healthcare and insurance policies can feel overwhelming.

While substance abuse treatment policies are designed to determine the extent of care a patient needs, most families need one-on-one support during this important time.

At the Florida House Experience, we walk every family through the intake process and explain what they can expect at each phase of treatment.

Inpatient Facility Levels of Care:

These Levels of care all take place in a world-class, state of the art, inpatient facility where the patient will reside, until medically stable up to 30 days. Here, meals are served and laundry services are provided to the patient. On site activities are provided such as Yoga, Massage, and many others that promote leisure and relaxation in an uncomfortable period of a person's life.

- ▶ Medically Managed Inpatient Detoxification
- ▶ Intensive Inpatient
- ▶ Inpatient Residential

Outpatient Campus Levels of Care:

Our dedicated Inpatient facility is conveniently located adjacent to our dynamic outpatient and sober living campus. The open campus lifestyle offers amazing amenities not found in most treatment settings, such as our Outpatient Medical Clinic, giving priority to FHE patients, as well as gender specific housing and pools, lush landscapes, and a computer lab. Housekeeping is also included.

Our Jojo's café is a centrally located area where patients may come at their leisure to have a meal on the patio or purchase an item from the convenient inventory of products. Our Alumni Resource Center is a place where you can begin to get your life on track. We help with job searching, resume building, educational opportunities, transportation, and provide other community activities with our Alumni that promote community, friendship, and togetherness. You will never feel alone on our Outpatient Campus.

- ▶ Partial Hospitalization Program
- ▶ Intensive Outpatient Program
- ▶ Sober Living

Neuro-Rehabilitave Services

Innovative Neuro-Rehabilitation

Substance Abuse Addiction Treatment Program

Whether this is your first time seeking help for drug and alcohol addiction, or you have a long and difficult history of either chronic relapse or ineffective traditional or medicinal treatments, our medically integrated Neuro-Rehabilitative program can work for you!

- ▶ Discover the parts of your brain that are adversely affected by addiction
- ▶ Personalize your treatment plan to fit your specific needs
- ▶ Track your progress over the course of your stay with us
- ▶ Train your brain to live free of drugs and alcohol

While other treatment centers diagnose based on only the description of symptoms, better known as "guesswork," The Florida House Experience employs a team of Neuroscientists and Psychologists to evaluate exactly where addiction has affected your brain. This is the best way to determine what treatment plan will suite your personal needs!

Other Specialized Services:

- ▶ Psychological and Neuropsychological Testing
- ▶ Dialectical Behavioral Therapy (DBT)
- ▶ Eye Movement Desensitization and Reprocessing Therapy (EMDR)
- ▶ Trauma Resolution Therapy
- ▶ Spirituality Services
- ▶ Vocational/Occupational/Educational Services
- ▶ Gambling Addiction Treatment

Admissions Process

At The Florida House Experience, we understand that the most difficult step in recovery is the first one, reaching out for the help you need. Our Admissions Team is comprised of highly experienced, down-to-earth individuals trained to comfortably guide you through the admissions process. Our team is sensitive to your situation, and will patiently work with you to ensure that you are taking the appropriate steps for your recovery.

Pick up the Phone and Call

Your call will be answered by a trained and qualified Admissions Specialist who will begin by asking, "How can WE help YOU?". Whether calling for yourself or a loved one, we will guide you in finding the best options available for your specific needs.

Assessment

This is for us to get to know you better and includes questions about your usage, medical history and various other factors in order to build criteria and place you in the appropriate level of care. You can take comfort in knowing we provide a safe and understanding environment for you to speak freely about your issues and concerns.

Placement

Now we will discuss facilities that best fit your individualized needs and that will provide you or your loved one with the highest quality of care.

Relax, you are in good hands

Finally, when a treatment decision has been made, we take care of all the details and make the process as easy and seamless as possible for you and your loved ones. You have been through enough, once you are ready to take the next step, we will be there to hold your hand.
